Base requirements

The Smart Procurement European Alliance (SPEA) project focuses on improving energy efficiency in municipal buildings in order to incorporate energy saving and renewable energy to these buildings and to develop sustainable management procedures in the cities of the European Community.

The project has identified ten libraries to implementation innovative solutions in energy efficiency.

The maximum amount of investment will 833 330 EUR

In advance of formal procurement procedures the project wishes to engage with potential suppliers of innovative solutions in energy efficiency to municipal buildings regarding:

- Monitoring
- Regulation and control
- Climate Control
- Lighting
- Envolupant
- Office Automation
- User Awareness
- Water management
- Renewable energies

This call has been issued to communicate this unmet need and to pull together the necessary technical and market information to develop a procurement strategy that can deliver the requirement.
